

Professional cable clamp lg 300 mm x wd 4.8 mm black in polyamide

Technical specifications:

The nylon polyamide 6.6 cable tie is quick to fit, as the tip facilitates insertion.
The cable tie is highly resistant to breakage.
ROHS-compliant

Outdoor use
Extreme climatic conditions

Application:

Cable clamp for securing tarpaulins.
Strong and waterproof.

 **Advice from mpa pro:**

This hanging system is recommended for high windy applications.

Limit of use:

The cable clamp is for single use only. Once tightened, it must be cut to remove it from the eyelet.
